SIX WAYS TO EXPLORE NEW IDEAS.

01 ClearMessage

A research prototype for understanding suspicious messages. The public demo replays a recorded result.

02 Real estate video

Six AI videos for three property projects for a RE/MAX agent: future buildings, renovations, and life at home.

03 Website studies

SkyRing, TitanGOAT, and Olomouc. Studies in design, development, interaction, and visual storytelling.

04 DOOM Bounce

A playable browser experiment with custom raycasting, bosses, and AI-generated animation and voices.

05 Education tools

Academic Vanguard for choosing seminars and an information site for the Berlin 2026 school trip.

06 AI radio

An autonomous music generation MVP. Broadcasting is paused; the next version and research are in progress.
